Office Action Summary	Application No. 10/628,003	Applicant(s) FANGMAN ET AL.	
	Examiner Niki M. Eloshway	Art Unit 3727	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Claims 6-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on March 8, 2006.
2. Applicant's election with traverse of Group I (claims 1-5) in the reply filed on March 8, 2006 is acknowledged. The traversal is on the ground(s) that all claims "require a double wall container for the grease". This is not found persuasive because a double wall container is not required in the subcombination claims and the distinctness of the method claims has been proven since the product can be used in a different process. The subcombination claims 1-5 are drawn to an outer container for use with an inner container. The double wall is positively recited in the combination claims 6 and 8-11. Claims 1-5 only require a single wall structure that *may be* used with an inner container to form a double wall structure. The double wall structure recited in claims 1-5 is a recitation of intended use not a positive recitation of the claimed structure.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Jamison et al. (U.S. 5,330,069). Jamison et al. teaches an outer container 1 having first and second outer container end walls

Art Unit: 3727

3, 4, a front outer container wall 5, a rear outer container wall opposite wall 5, a floor 7 and upper end 2. The first and second flaps are elements 12 and the first and second notch covers are elements 11. The guide cams are considered to be the inwardly extending ribs of the container walls shown in figure 2.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art is cited for the lid arrangement and/or double wall structure.

6. THIS ACTION IS NON-FINAL.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Niki M. Eloshway whose telephone number is 571-272-4538. The examiner can normally be reached on Thursdays and Fridays 8 a.m. to 4 p.m..
